Robots are coming! Build IoT apps with Watson AI, Swift, and Node-RED

Issued by [IBM](#)

Earners of this badge can build Watson IoT apps that connect IoT devices: Raspberry Pi, smartphone, and iRobot Create 2. Earners can deploy the app to IBM Cloud; add Twitter notifications and a Cloudant database; create a UI in Swift; analyze photos with the Visual Recognition service; create a voice UI with Speech to Text service; configure connections from iRobot to the Raspberry Pi.
